

**NEW!**

# HI-SHINE<sup>®</sup> AEROSOL FORMULATION

Easy to apply. Goes on clear and is quick acting.

**FRAGRANCE FREE!**

Say goodbye to dull, oxidized balloons.  
It coats balloons without gloves or wiping.

- Keep latex balloons shiny for weeks and weeks; balloons treated with HI-SHINE look brighter and shinier than when they were first inflated!
- Restore the shine to latex balloons that have become dull and cloudy.
- Use with air-filled décor AND HI-FLOAT helium-filled balloons.
- Combine HI-FLOAT and HI-SHINE for balloons that defy gravity – and time – for longer than ever.

Essential to balloon success. | [hi-float.com](http://hi-float.com)
